FOLIO

Faculty of Science: Award for Excellence in Teaching

On 20 May the prestigious Faculty of Science Award for Excellence in Teaching was bestowed upon John Kuspira, Professor of Genetics and Associate Dean of Science. Dr. Kuspira was selected as the outstanding teacher in the Faculty of Science for the academic year 1980-81. His outstanding ability in teaching has been long recognized by students and staff. In the words of some of his students, "he lectures with a high degree of organization, enthusiasm, knowledge, dedication, and the ability to create rapport with the students. The energy he puts into his lectures creates an atmosphere that brings out the individual potential of all his

students."

Dr. Kuspira has taught a wide range of courses during his career at The University of Alberta: Genetics 351, Cytogenetics 415 and 515, Molecular Cytogenetics 521, Human Genetics 365, and Genetics and Plant Breeding 463.

Dr. Kuspira is a graduate of the University of Saskatchewan (BSc 1951; MSc 1952) and The University of Alberta (PhD 1955). He designed and taught this University's first full-year course in introductory genetics in 1954-55. Dr. Kuspira was appointed Associate Dean of Science in 1969, and has continued in that position to this day. □

Dean Newbound, Faculty of Science, presents his Faculty's Award for Excellence in Teaching to John Kuspira (right).

The McCalla Saga Continues

By now, Folio readers will (or should) be aware of the Arthur G. McCalla Research Professorships that are being supported by our institution's Endowment Fund for the Future. These Professorships are being awarded to deserving people in a wide variety of disciplines to allow them to engage in full-time research, essentially for one academic year. This certainly is a boon for people particularly hard pressed by course loads, departmental committee work and the like.

So far, "McCallas" have been announced for the Faculties of Arts, Science, Business Administration and Commerce, Law, Engineering, and Home Economics. Now, to this number of eleven recipients must be added one in the Faculty of Physical Education and Recreation, H. Arthur Quinney.

Dr. Quinney, of the Department of Physical Education, was born in Rosetown, Saskatchewan, and received his first two degrees from the University of Saskatchewan (BA, 1966; MSc, 1968). His PhD was earned at The University of Alberta (1974), the title of his dissertation being The Relationships and Influence of Three Selected Variables in the Aerobic Capacity of Citizens of an Urban Canadian Community. After several teaching stints at a variety

of institutions, including Laurentian University at Sudbury, Dr. Quinney came to our University in 1976 and was promoted to the rank of Associate Professor in 1978.

Dr. Quinney's interest in exercise physiology lies at the heart of his application for a McCalla Professorship. During the time afforded him by the McCalla, he hopes to continue a project that has been under way now for some two years: exercise testing and exercise prescription for "elite athletes and normals." Up to this point, Dr. Quinney and his colleagues have been gathering data and, to this end, have been collaborating with several national

teams, notably the speed skating, hockey, and swimming teams. During 1981-82, Dr. Quinney expects to subject the data already gathered to further analysis.

In addition, according to the McCalla recipient, new test procedures and the further acquisition of data concerning the muscle power of normal and athletic subjects will eventually provide a standard reference for the interpretation of information gained from the use of a Cybex II dynometer. This is potentially of great importance, as the particular instrument is used for pre- and post-surgical treatment, for assessing and for prescribing training programs for people who

have been injured, whether or not athletes.

In Dr. Quinney's project, then, there are elements of study that take the WCIAA 1965 "All-Star Defensive Tackle" well away from the playing field, often assumed by laymen to be characterisic of his discipline. Indeed, several researchers in different fields have agreed to cooperate in the project: D. Magee, Faculty of Rehabilitation Medicine, D. Reid, Faculty of Medicine, Gordon

Arnett, an orthopedic surgeon, and R.D. Steadward, Department of Physical Education.

Dr. Quinney is a well-known figure in his field. He has acted as consultant in fitness training programs for a whole host of agencies and enterprises. He has (at the time of writing) presented some sixty addresses, has appeared on radio and television thirty-six times, and has published his work widely.

Microcomputers Donated

Commodore Business Machines Ltd. has donated twenty microcomputers to The University of Alberta's Department of Industrial and Vocational Education. The total value of the donation is \$90,000, making it the company's largest donation, academic or otherwise, to date. E. Kellow, President of Commodore, and J. Dionne, Sales Manager, Computer Division, were on Campus on 2 June to announce the donation

was the disclosure that funding from Alberta 1980s Advanced Education Endowment Fund has enabled the Department to buy another twenty microcomputers from Commodore. ment the wherewithal to buy another twenty microcomputers. The hardware, which is compact and portable and demands only AC outlets, will be put to use preparing teachers and administrators for the onrush of computerassisted instruction in schools. Last year, for example, the Edmonton public school system possessed nineteen microcomputers; this year it has budgetted for one hundred and thirty-nine.

Microcomputers came on the world market in 1977 and found favor in several countries shortly thereafter. France launched a three-year teacher training program and is introducing some 10,000 microcomputers to the classrooms.

Mr. Kellow commended the Department of Industrial and Vocational Education for the leadership role it has played in the computer-assisted instruction movement. He said it is important that teachers keep on top of innovative methods of teaching and that, as the quality of instruction hinges partly on the quantity and accessibility of teaching aids, Commodore was pleased to provide the hardware.

Meanwhile, many pairs of hands are poised to take the next microcomputer course which begins on 6 July under the direction of M. Petruk.

Clifford E. Lee Distinguished Professor of Child Development Appointed

A Canadian, currently Associate Professor at the University of Minnesota's Institute of Child Development, has been appointed to the Clifford E. Lee chair in Child Development at this University. As such, Frederick J. Morrison is the first person to hold the Clifford E. Lee Professorship in the Division of Family Studies.

Dr. Morrison graduated with a BA in psychology from the University of Toronto before going on to take a PhD in developmental psychology at Harvard University in 1971. His academic honors include a Harvard Fellowship (1966-67), a Canada Council Fellowship (1967-70), and the Research Scientist Development Award (1979-84). He comes to this University as an expert in the cognitive processes of the child with, in addition to his current research relating to the cognitive bases of reading disability, some twenty-eight papers, books, monographs, and articles delivered. published or in press.

The Distinguished Professorship, which has been generously funded by the Clifford E. Lee Foundation (a well known benefactor of this University) received its initial impetus as a need perceived by the International Year of the Child Ad Hoc Committee. The need was for strong leadership in the area of child development, in particular for practitioners in the field at the post-graduate level.

The chair in Child Development, then, has been created to provide leadership to practitioners in Canada (and specifically in Alberta). This will be effected by the establishment of a research program; by cutting across artificial boundaries to work with scholars who share similar interests at this University but who are not employees in the Faculty of Home Economics; by conducting a variety of seminars, workshops and the like for staff. graduate students and community professionals; and by engaging in a small amount of teaching and supervision.

More SSHRCC Fellows

The list of Albertan residents who have been named first-time recipients of SSHRCC Doctoral Fellowships (Folio, 21 May 1981) was incomplete. Here is a list of the remaining names. Laurel Fujimagari, Calgary; Donn Garrison, Calgary; Leslie Rosalind Hall, Calgary; R. Byron Henderson, Calgary; Marianne Henn, Edmonton: Patricia Hunter, Edmonton: Harvey Krahn, Edmonton; Isaac Mabindisa, Edmonton; Ross Mallick, Grande Prairie: Kimberley McEwan, Calgary; Ian McLatchie, Calgary; Susan Nattrass, Edmonton; Michael Neufeld, Calgary; Laurie Nock, Calgary; Don Northey,

Edmonton; Renato Pablo, Calgary; Morag Pansegrau, St. Albert; Asha Paranjape, Edmonton; Patricia Joan Pecover, Edmonton; Margaret Price, Edmonton; Douglas Rebne. Edmonton; Jessica Roberts, Calgary; Richard Rogerson, Edmonton; Carol Lynn Ruthven, Edmonton; Sherrie Shammass, Edmonton; Donald Shattuck, Cardston; Peter Stahl, Edmonton; Heidi Studer, Edmonton; Barbara Telford, Edmonton; Glen Toner, Devon; James Tousignant, Edmonton; Les Viner, Calgary; David Vriend, Edmonton; and Joseph Woodard, Calgary.

Interdisciplinary Studies 1976-81

There was a death in the University community on 25 May. That alone is cause for sorrow but when the departed was a single parent . . . well, the black clouds become cumulus.

The death, however, was not untimely and the death bed was surrounded by caring people, namely the members of General Faculties Council. On said bed, in good spirits but fading fast nevertheless, was the Office of the Dean of Interdisciplinary Studies. The position of Dean of IDS was conceived in 1974 and born in 1976 on the understanding that it would pass away at the end of the fifth year after the initial appointment unless a positive

recommendation for continued life was received from GFC and approved by the Board of Governors.

Council, pale but calm, and in full realization of the lessening of popular interests in Interdisciplinary Studies as an identifiable and separate entity, and of this, the era of austerity budgetting voted to take no action, hence all that remained was to bring in the shoud. The passing of the Office means there are eight homeless waifs on the scene-the Boreal Institute for Northern Studies, the Canadian Institute of Ukrainian Studies, the Centre for Advanced Study in Theoretical Psychology, The Centre for the

Hire Canadians "Rule" Strengthened

A policy statement issued in Ottawa on 7 May may have good news for out-of-work and "under-employed" Masters and PhDs in Canada. According to the statement, made by the Hon. Lloyd Axworthy (Minister of State for Employment and Immigration), universities in this country will have to advertise for Canadian candidates and evaluate these candidates' suitability for positions before they advertise abroad.

While the new policy is expected to be adopted by universities in time for the 1982-83 academic year, the Association of Universities and Colleges of Canada notes that, according to a federal government spokesman, Employment and Immigration will adopt a "flexible attitude" toward university hiring commitments made prior to the announcement and which do not comply with the new regulations.

Hang in there grads of English, History, Sociology and Anthropology departments, your time may come before the 1990s. (Of course, you'll still have to prove your suitability. After all, out there we can find graduates of Harvard, Oxford, the University of Paris, Stanford, Yale, Cambridge, Princeton. . . .)

This Week's Quote

"It is no longer possible to argue, as many did in the late 1960s and early 1970s, that Canadianeducated Canadians are not the equal of foreign citizens or those educated in foreign universities. Any claims that departments must look outside the country to find good candidates for job vacancies must be viewed with skepticism."

Source: "The crisis in universities: the door to jobs is still closed on Canadians," by J. Paul Grayson and Dennis Magill. The Globe and Mail, Wednesday, 27 May 1981, p. 7.

Study of Mental Retardation,
Community Development, the
Devonian Botanic Garden, East
European Studies, and the Water
Resources Centre. They do have
the season of the year in their
favor and the University's paternal
instincts are manifesting themselves. Why, even before the
funeral arrangements were settled,
there was talk of transferring the
various research units under the
IDS umbrella to the Vice-President

(Research) for administrative purposes and of developing alternative arrangements for the Community Development Program.

So, while the Office of the Dean of Interdisciplinary Studies is no longer with us, it will not be a case of IDS RIP. And as for that Office, the good deeds it has wrought in its brief but exceedingly active life will surely keep alive the *genius loci*.

Letters

■ We in the Drama Department are most grateful to Folio/New Trail for their generous description of our work in the May 1981 issue. It's good to be appreciated by one's colleagues!

But while thanking you let me also identify other aspects of the Department's professional work that you did not mention, but of which we are equally proud. There are three new theatre companies in Edmonton that were started by our graduates and faculty: Theatre Network, Catalyst Theatre, and Workshop West.

The Catalyst Theatre genre has also let to a successful CBC television series hosted and co-directed by David Barnet. Professor Barnet is also the winner of the Ohio State Award for educational radio. Last year Kevin Burns was nominated for an Actra award for Best Dramatic Script Radio.

The Department of Drama has a broad range of professional connections, from the Canadian main stream to exploratory and experimental theatre, film, television, and radio. I believe this is what makes our faculty and program unique.

You also mention the Studio Theatre production of Pinter's, "Old Times." While we have collaborated with Northern Light Theatre in the past, and look forward to more joint ventures, this particular production was by the Drama Department alone, with the generous assistance of the Clifford E. Lee Foundation.

Thomas Peacocke, Acting Chairman, Department of Drama

I have read with interest the various letters that have been published either in favor of or against the "People" column in the Folio. The question of some names appearing several times in a year is irrelevant, as far as the purpose of this column in particular, or the Folio in general is concerned. As I understand it, the various items in the Folio are meant as information to the University community. This University is large indeed; so are many of the Departments within the University. It is useful, but not necessary, for the many who work in the University environs to know what is going on in there. I have seen various newsletters put forth by professional societies having a personal corner, where promotions, honors received, life cycle events, sabbatical leaves, etc., are discussed. Only a few people turn in news items to these personal columns. I treat the "People" column of the Folio in the same way. It is left to the individual members of the University community to turn in news of interest,

in their eyes, to the general community.

I have found that the Folio's publication of seminars, course offerings, deadlines for grant application, etc., helpful. The "People" column also gives one a picture, probably very partial, of the activities going on here. The Folio should try to make it a complete picture by contacting the various departmental chairs and directors of institutes to provide information regarding the University faculty and other staff for inclusion in this column.

The voice of the University is not heard very much outside. I think the Folio is a good medium to carry the concerns of the large city within the City of Edmonton to the public. Hence the University readers should write commentaries on the various issues

and concerns that The University of Alberta is facing and will face in the near future. The public at large should be made aware of the contribution we are making to the society, and the problems we are facing. The general population should not be left with the impression that the University is an ivory tower of fat cats.

P. Krishnan, Sociology

■ Someone read what you wrote in your paper about people who were too much in the limelight. I did not know anyone on your list. But it made me think of the French General Clemenceau in the first war. "The only real hero is the soldier in his unknown grave." It made me think of all the unknown names of the men

who built Edmonton on their dream of a "big Chicago in the North." Like Moses, they never saw it as it was before it is being torn down. In 1903, Edmonton was only a town in the Northwest Territories. I was here. I know some of them and their dreams. I never see their names in print. They are the unknown soldiers, who gave their lives for a dream of digging it out of the "gumbo"; their women washed off the "gumbo" and made pure Canadians of them, Galacians, Scotch, Irish, German, Negroes, Chinamen, French and Indians-I knew many of them-and never a hyphenated Canadian, except an Englishman. But then it was: "Why shouldn't we? We owns them!"

I am 91 and blind and can't see what I have written. If I have

left out letters in my words or left "i-s" undotted and "t-s" uncrossed, the "soul is not dead that slumbers."

I thought I would take a course in Anthropology from the Athabasca University, to help me from getting into fights at bridge or playing bingo. Coping from the textbook to the workbook is no fun. So I can hardly wait for bingo. And tear down the old stuff. And get back among the unknown "Boosters," who gave themselves the name and slogan.

Be a "Booster"! Not a "Knocker"! Seventy-seven years is a long time and a short time. But what is time?

Edna Shore, Roger Parker Pavilion Lynnwood Extended Care Centre (P.S. Please laugh)

service information

All material to be included under this rubric must reach the Office of Community Relations by 9 a.m. the Thursday before the desired issue of Folio is due to appear. Such information is published according to the dictates of space available. Thus, publication cannot be guaranteed.

Fee: \$4. Telephone: 987-3054.

Grant MacEwen Community College

Legal Aspects of the Performing Arts Incorporations/Partnerships Date: 9 June. Time: 9:30 a.m. to 11:30 a.m. Fee: \$20. Session will take place in Room 297 Jasper Place campus. To register, or for more information please call 483-4307.

Notices

Provincial Archives

The Reference Room of the Provincial Archives is open until 9 p.m. every Wednesday, to meet the needs of researchers who cannot make use of the Provincial Archives' facilities during normal daytime hours. Staff are on hand to advise researchers on source material at the Archives and elsewhere, and instruct them on the use of the Archives' indexes, inventories and library catalogue.

Researchers should note that documentary materials books cannot be retrieved from stack areas in the evening. The Retrieval Aide or Reference Archivist must be notified no later than 3 p.m. Wednesday if material is required for research, to prepare it. Requests for reprographic copies of documents and photographs

will be accepted and prepared Thursday mornings.

Regular Reference Room hours are from 9 a.m. to 4:30 p.m., Monday to Friday. The Provincial Archives is located at 12845 102 Avenue, Edmonton,

Volunteer Opportunities
Fill your summer with valuable experiences. Interesting volunteer positions are available with over 140 different non-profit organizations throughout Edmonton. Phone 432-5097 or drop by the office Wednesdays 11 a.m. to 2 p.m. Room 242, SUB Volunteer Action Centre, University of Alberta Branch.

Positions Vacant

Programmer/Analyst Office of the Registrar A Programmer/Analyst (Level II or III) is needed in the Office of the Registrar to aid in the design and implementation of computer systems which will assist the staff to carry out their various tasks more efficiently and effectively. The Programmer/Analyst will be involved, in part, with a large on-going project but will also be involved with smaller independent projects. He or she will work closely with the Registrar's Office staff in the design of systems and will interact with both the Office of Administrative Systems and the Department of Computing Services. The computing environment in which these offices operate is sophisticated and is oriented heavily toward the use of terminals and complex data bases.

Qualifications preferred are knowledge and experience with COBOL and JCL and some familiarity with IBM systems. The ability to write GIS programs would be an asset but this can be learned on the job. Training in the use of other softwear, particularly IMS, will be provided.

Starting level and salary will be commensurate with qualifications and experience. The University offers a comprehensive employee benefits package and is an equal opportunities employer.

Applicants should contact Dr. W.A. Blanchard, 201 Administration Building, The University of Alberta, T6G 2M7 (telephone 432-3723).

Administrative Assistant (Director of Public Relations— Faculté Saint-Jean)

The Faculté Saint-Jean requires a person to assume responsibility for public relations, information services, and admission services. The incumbent will also act as a liaison with secondary schools in the province.

An undergraduate degree is required and the candidate must also be bilingual in Canada's two official languages. A driver's licence, knowledge of the Alberta school system, and audio-visual and public relations experience are also required.

The starting salary is \$1,365 per month commensurate with experience. Interested people should apply to: Personnel Services and Staff Relations, Third Floor, Students' Union Building, 114 Street and 89 Avenue, Edmonton, Alberta T6G 2J7 (telephone 432-5201). The University of Alberta is an equal opportunities employer.

Adjoint à l'Administration (Directeur des Relations publiques —La Faculté Saint-Jean)

La Faculté Saint-Jean requiert les services d'un Adjoint à l'Administration. Tâches: Responsable du Service d'information et des admissions de la Faculté, des relations publiques et de la liaison avec les écoles secondaires de la province.

Qualifications: diplôme universitaire, bilingue (anglais/français), permis de conduire, connaissance des écoles albertaines, connaissance en relations publiques et en audio-visuel.

Traitement: l'echelle de salaire commence à \$1,365 par mois et le salaire éventuel dépendra des qualifications. Les interessés sont priés de communiquer avec: Personnel Services and Staff Relations, 3ième Étage, Students' Union Building, 114 Street et 89 Avenue, Edmonton, Alberta T6G 2J7 (téléphone 432-5201). Concours overt aux hommes et aux

Markers, Demonstrators
The Department of Chemistry
anticipates a need for several part-time
sessional markers and laboratory
demonstrators during the Winter Session
beginning in September.

Persons with a related degree, or senior undergraduates, who would be interested in this type of work should register their interest with Gordon Weir, Personnel Officer, Department of Chemistry.

Appointments will be made in early September once the exact staffing need is known. Rates of pay will be commensurate with education and experience.

Assistant

An assistant is required to work with two physically disabled students on a summer project on campus. Duties include basic clerical and mobility assistance. Ten hours a week during July and August. \$5/hour. Apply to Kathy, Office of Student Affairs, 225 Athabasca Hall. Telephone 432-3483.

Administrative/Professional Officer (Forester)

The University of Alberta, Forest Science Department, has a position for an individual capable of providing efficient administrative support, and acting as Director of Spring Camp. Responsibilities include: clerical (5) and technical (4) support staff supervision; capital and operating budget preparation and control; student counselling; liaison with service,

administrative and other departments; liaison with outside agencies, organizations and direction of annual five week Spring Camp for BSc(F) students; participation on various councils and committees; professional and executive assistance to Forest Science Chairman and Associate Dean—Forestry.

This is a challenging and rewarding position for an individual having at least a BSc in Forestry, or equivalent, and an interest and aptitude for administrative work. The incumbent must enjoy working closely with students, and must be capable of communicating well with individuals at all levels of various organizations. Tact and diplomacy are important.

The starting salary is \$21,294 or higher, depending upon qualifications and experience. Applications and three letters of reference should be forwarded by 15 June 1981 to: Dr. James Beck, Jr., Acting Chairman, Forest Science Department, The University of Alberta, Edmonton, Alberta T6G 2G6 Telephone: (403) 432-4413. The University of Alberta is an equal opportunity employer.
